- a. Baseline analysis
- b. Describe the actuarial analysis in clear and simple words
- c. Consultants

Proposed SCI Team Report Outline

(Draft dated March 5, 2008)

Chapter 6. Recommendations

Questions to answer:

- How can we provide coverage to Ohio's uninsured residents?
- How can we make coverage affordable?
- What kind of coverage do we want to provide? Are we most concerned with protecting people against catastrophic events, or providing people with coverage that improves health?
- How will we pay for the coverage?
- How can we make our program sustainable? How do we reduce or control long term health care spending by the program?

Chapter 7. Issues For Further Study
